The Telephone Company may provide for the arrangement of a deferred payment plan to enable a residential customer to make payment by installments where the customer is unable to pay the amount due for service. The deferred payment plan may require the affected customer to maintain his/her account current and pay not less than 1/6 of the outstanding balance for a period not to exceed six months. The outstanding balance may include the authorized late payment charge.

3.2.12 Construction, Installation and Maintenance Charges

Construction performed under this Section shall be at the sole discretion of the Telephone Company.

Special charges in the form of installation charges, monthly charges, or both are applied in addition to the usual service charges and monthly rates, when, because of the sporadic or occasional nature of the service or an unusual investment or expense, the revenue does not reasonably compensate the Telephone Company, for example:

- A. The facilities are not presently available, and there is no other requirement for the facilities so constructed.
- B. The facilities are provided in remote or undeveloped sections or if the facilities are provided on a temporary basis.
- C. The facilities are of a type other than that which the Telephone Company would normally utilize in the furnishing of its services.
- D. The facilities would be deployed over a route other than that which the Telephone Company would normally utilize in the furnishing of its services.
- E. The facilities would be constructed on an expedited basis.
- F. The facilities would be in a quantity greater than that which the Telephone Company would normally construct.
- G. The facilities would be constructed on a temporary basis until permanent facilities are available.
- H. The facilities would be constructed in advance of Telephone Company's normal construction.
- I. The conditions require the provision of special facilities or unusual methods of plant construction, installation, or maintenance.
- J. The Customer's location requires the use of costly private right-of-way.

Title to all construction, provided wholly or partly at a Customer's expense, is vested in the Telephone Company.

5. Business Services

5.1. Rules and Regulations

The regulations specified herein are in addition to the rules contained throughout this Tariff and other tariffs of the Telephone Company. Failure on the part of customers to observe these rules and regulations of the Telephone Company automatically gives the Telephone Company the right to cancel the contract and discontinue the furnishing of service.

The Telephone Company's obligation to furnish service or to continue to furnish service is dependent on its ability to obtain, retain and maintain suitable rights and facilities, and to provide for the installation of those facilities required incident to the furnishing and maintenance of that service.

Products and Services are available as stated herein, where technically feasible. The quantity of business lines, per customer location, is dependent on the technical feasibility at that specific location. Additional construction and facilities may be required at the customer's expense. The customer must pay for any special construction prior to the activation of service and/or cancellation of contract. All charges are due and payable upon receipt of the bill.

Tax-exempt status shall not relieve Customer of its obligation to pay any applicable franchise fees or mandated federal and state surcharges.

The Customer is responsible for any fraudulent or misuse of service that occurs through Customer's account whether by a member of Customer's business or an authorized or unauthorized third-party. Misuse of service could include PBX Hacking, modem hijacking, excessive usage of international calling, and 411 directory assistance calls and other per-use charges. The Customer is responsible for payment of the fraudulent calls, whether originated from the customer's premises or from remote locations.

Customers who purchase only Charter Business local exchange and long distance services and do not purchase any other Charter Business services, including affiliate services, will be required to sign up for automatic payment prior to installation of local and long distance services. The customer must maintain a valid account with automatic payment for not less than six (6) months from the date the Business Telephone Service is installed or be subject to disconnection.

The Customer shall be in default in the event that the Customer does one (1) or more of the following (each individually to be considered a separate event of default) and the Customers fails to correct each noncompliance within twenty (20) days of receipt of written notice in cases involving non-payment or within thirty (30) days of receipt of written notice in cases involving any other noncompliance:
